Experiment 17 · Scratch learning curves

Training — epoch mean · Validation · Selected checkpoint

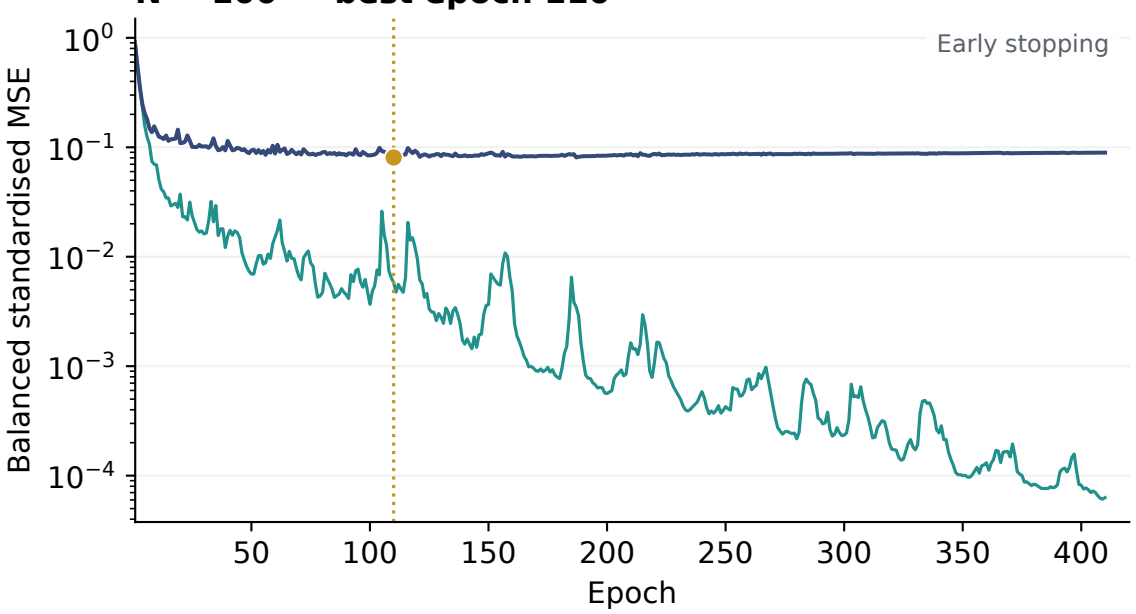

N = 10 · best epoch 62

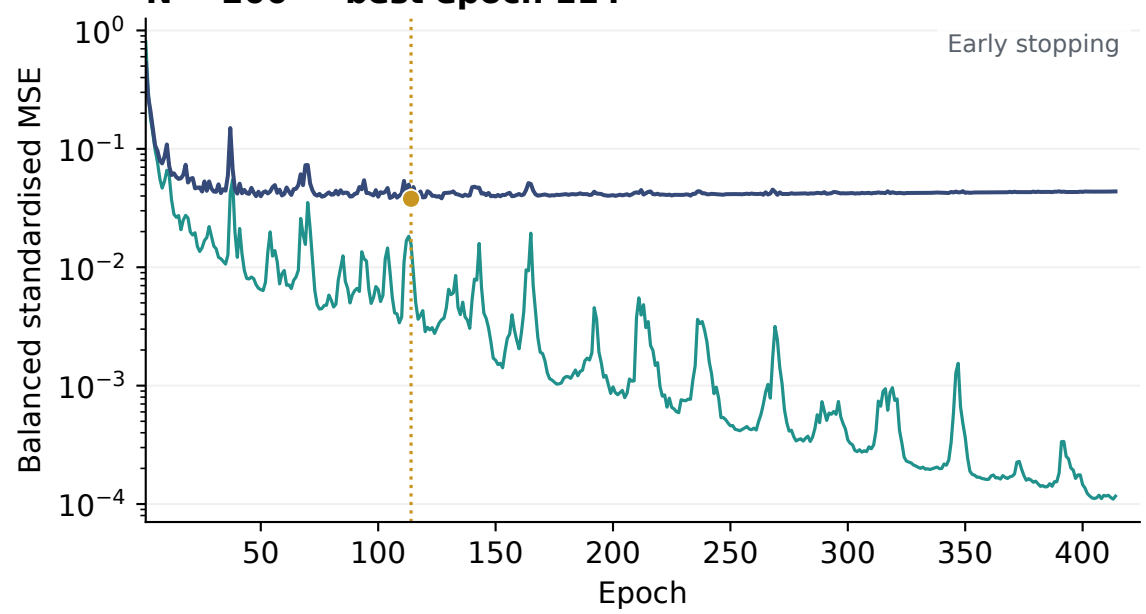

N = 50 · best epoch 90

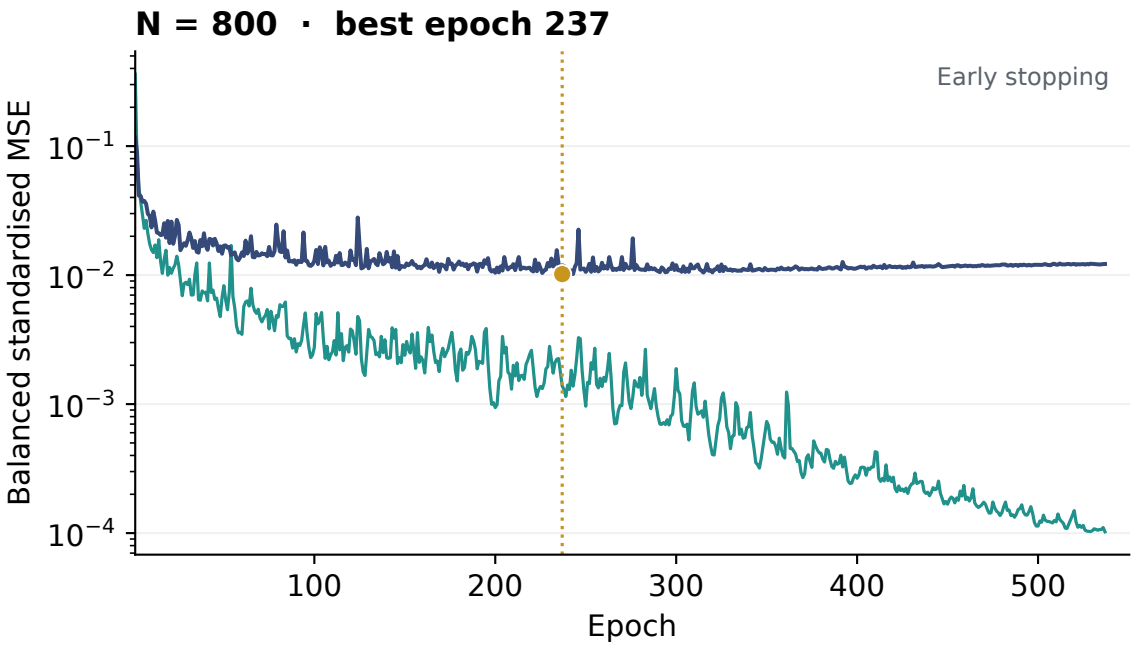

N = 100 · best epoch 110

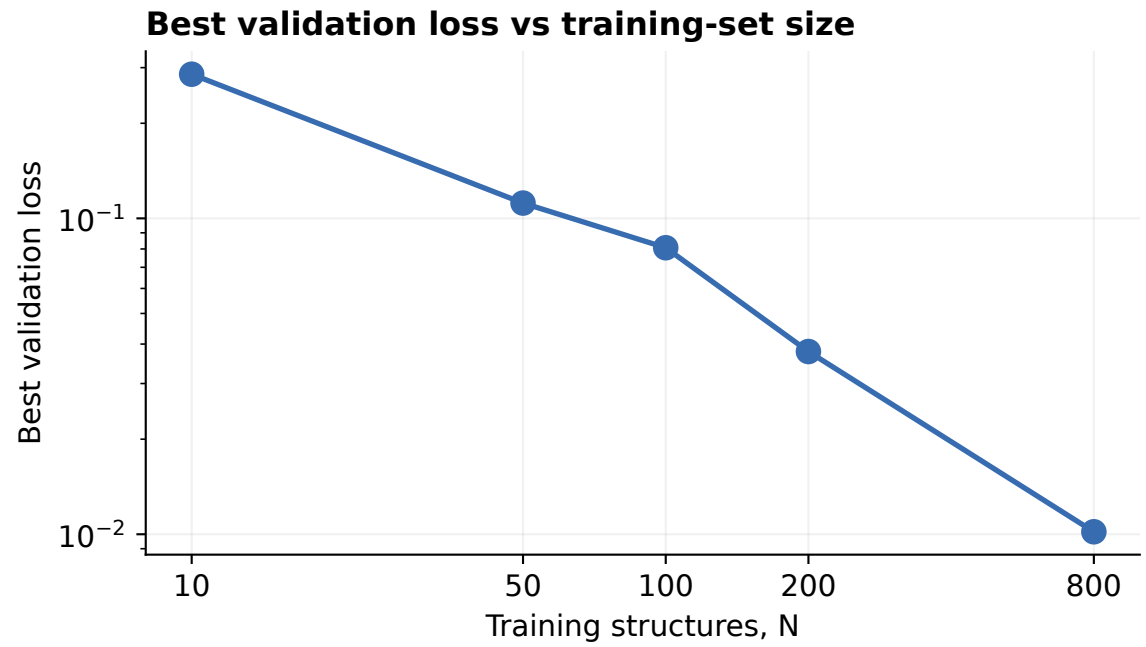

N = 200 · best epoch 114

N = 800 · best epoch 237

Best validation loss vs training-set size

Selected checkpoints minimise loss on the same 50 validation structures. Seed 42 · unsmoothed epoch histories.
