Training — epoch mean · Validation · Selected checkpoint

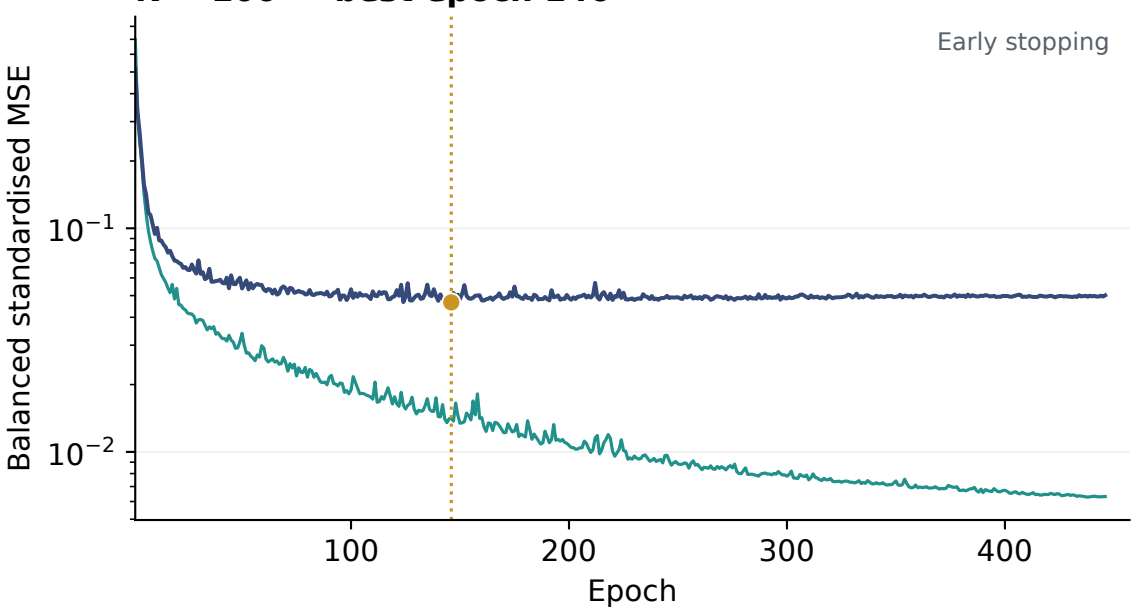

N = 10 · best epoch 416

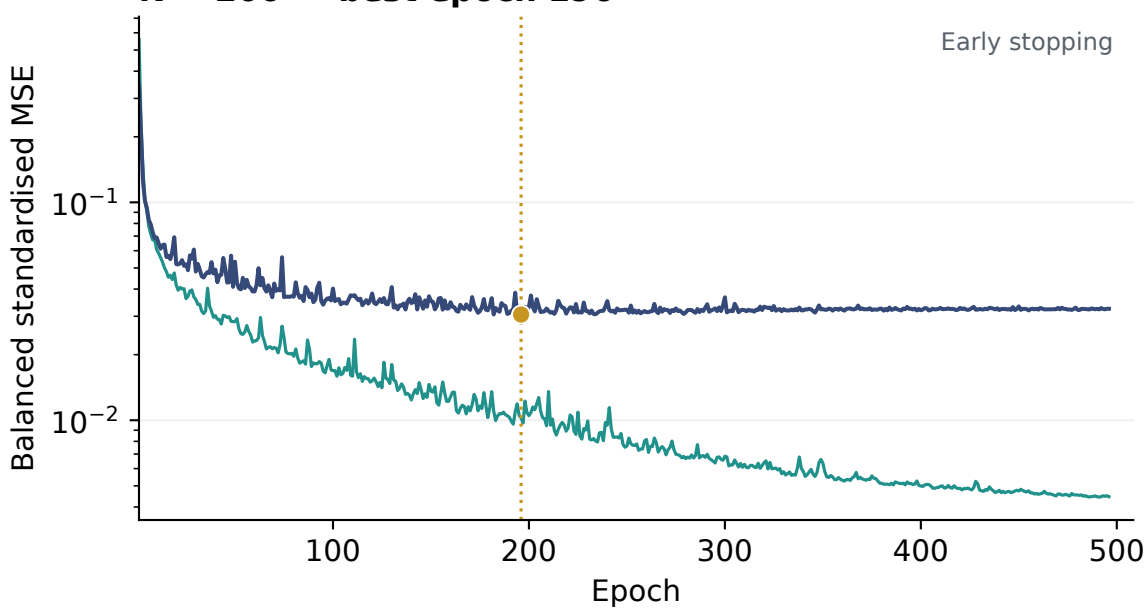

N = 50 · best epoch 256

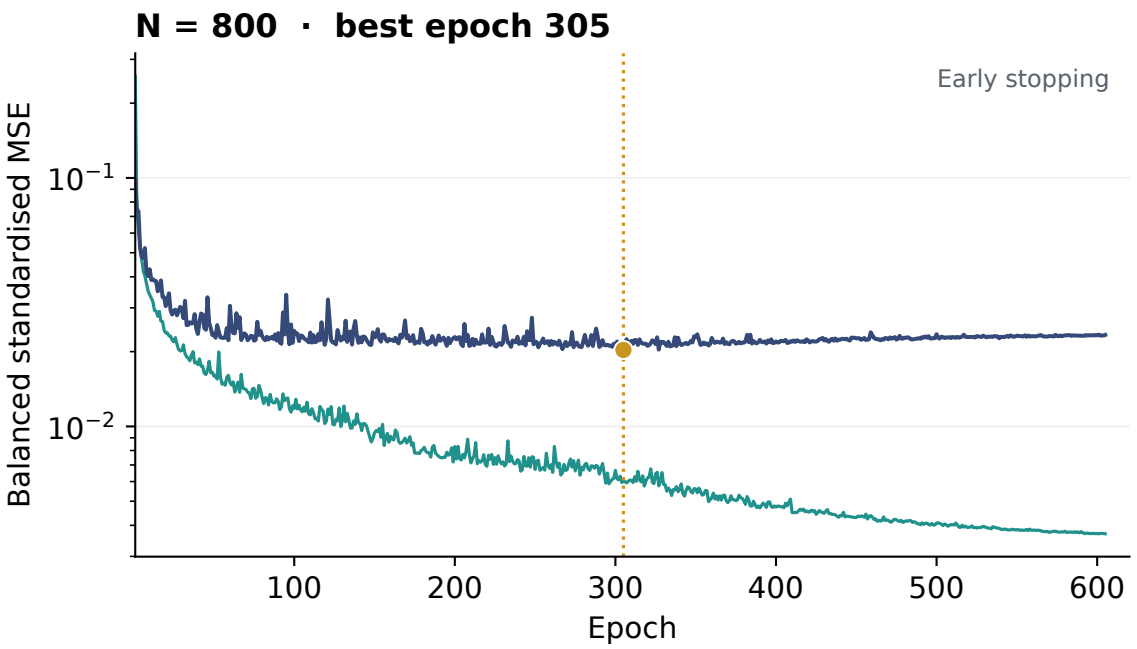

N = 100 · best epoch 146

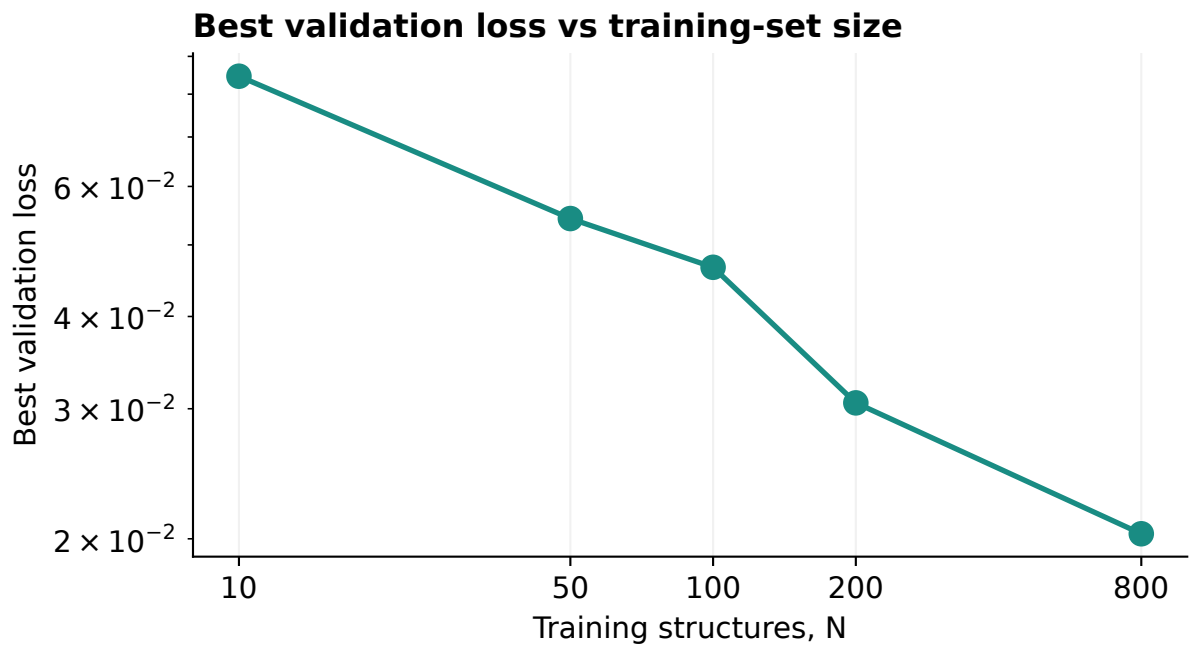

N = 200 · best epoch 196

N = 800 · best epoch 305

Best validation loss vs training-set size

Selected checkpoints minimise loss on the same 50 validation structures. Seed 42 · unsmoothed epoch histories.
